This will be an illustrated talk tracing the career of a many sided genius who began as an engineer. Brunel developed the Great Western Railway before he turned to shipping and played a leading part in ocean steamship construction. His final and most notable triumph was the Great Eastern which has so many associations with Liverpool.

Brunel is one of the giants of the 19th century whose work laid the foundations of modern technology.

TUESDAY, 24th JULY 1984 at 8 p.m.

Gateacre Chapel Hall, Sandfield Road. Visitors welcome 25p. Tea 10p.

.....

Mersey Guide Walks - leaflets advertising these walks, dates, times, where to get your ticket etc. are available from the Secretary, or at the meeting. There is to be a Gateacre Walk this year, sometime in September - more details later.

Minor triumph - After 'going on' at the City Estates Department for a year or two now, at last the wrought iron lamp bracket has been replaced on the gate pier at Oakfield School - hurray !
